SUMMARY

Aspiring Full Stack Developer with experience in React.js, Node.js, and MongoDB. Proven ability to lead teams, develop scalable web applications, and deliver results under tight deadlines. Seeking opportunities in software engineering and web development.

EDUCATION

Vivekananda Institute of Technology,
B.TECH Computer Science and Engineering

2022 – 2026
Jaipur, Rajasthan

TECHNICAL SKILLS

Languages: JavaScript, SQL, C++ (Basics)

Frameworks / Libraries: React.js, Node.js, Express.js, Tailwind CSS, Redux, Axios

DevOps / Tools: Git, GitHub, Docker, Postman, VS Code, Render, Vercel

Databases: MongoDB, MySQL

EXPERIENCE

SCJ Entertainments

June 2025 – Present

Role - Junior Website and App Developer (Team Lead)

Remote

- Directed a team of 4 developers to build and deploy a full-stack platform using React.js, Node.js, and MySQL on ServerByte, handling 200+ daily page views.
- Streamlined workflows with Git branching and CI/CD, reducing integration conflicts by 40%.
- Designed modular, secure APIs and responsive UIs, improving load times by 30%.

Infosys Springboard

October 2024 – December 2024

Role - Full Stack Developer

Remote

- Developed **StudyBuddies**, a MERN stack app enabling collaborative flashcard creation and management.
- Implemented JWT-based authentication and role-based access control for secure user management.
- Applied Agile Scrum methodology and configured CI/CD pipelines for efficient deployments.
- Enhanced user engagement with community-driven features like upvotes, downvotes, and favorites.

PROJECTS

FinMate – Smart Budgeting App

- Developed a MERN stack app for tracking income, expenses, and budgets with dynamic dashboards and JWT-based authentication.
- Managed application state using Redux and optimized API calls with Axios for seamless performance.
- Deployed frontend on Vercel and backend via Dockerized Node.js server using CI/CD pipelines.
- Technologies Used:** React.js, Node.js, Express.js, MongoDB, Redux, Axios

QuickCart – Real-Time eCommerce Platform

- Developed QuickCart, a full-stack eCommerce platform featuring secure authentication, real-time cart management, and admin dashboards.
- Integrated **Razorpay** for secure payments and deployed on **Render** for production use.
- Technologies Used:** React.js, Node.js, Express.js, MongoDB, Razorpay, Render

CERTIFICATIONS

- Introduction to Cybersecurity – **Cisco**
- JavaScript Programming – **Infosys**
- Open Source Development – **LFD102**

EXTRACURRICULAR

- Secured Rank **5914** (out of 100,000+) in **TCS CodeVita Round 1**, showcasing strong problem-solving skills.
- Developed and pitched a working prototype during a 24-hour college hackathon (Oct 2022) under pressure.
